FINANCIAL ANALYST · CFA LEVEL II CANDIDATE

Ethan Law Jun Yi

Turning complex numbers into clear investment decisions.

Email hello@example.com **LinkedIn** linkedin.com/in/ethanlawjunyi

ABOUT ME

Analytical by training, practical by habit.

I'm a financial analyst with a background in corporate finance and equity research. My work sits between the spreadsheet and the boardroom.

I build the model, stress-test the assumptions, then explain the result in plain language so decisions can be made with confidence.

EXPERTISE

What I bring to a finance team

01

Valuation & Modelling

DCF, comparable company and precedent transaction analysis with clear, auditable assumptions.

DCF · Comps · Three-statement

02

Budgeting & Forecasting

Driver-based forecasts and variance reporting that keep leadership ahead of the numbers.

FP&A · Variance · Rolling forecast

03

Risk & Portfolio Analysis

Scenario analysis, sensitivity testing and portfolio metrics to understand downside early.

Scenarios · Sensitivity · Sharpe

SELECTED WORK

Featured projects

EQUITY RESEARCH — +22% upside

Consumer Retail Sector Initiation

Three-statement model and DCF for a mid-cap retailer, revealing margin expansion the market had not priced in.

FP&A — -12% cost variance

Rolling Forecast Automation

Replaced a manual monthly reporting process with an automated model, saving about 30 hours a month.

M&A — $85M deal

Acquisition Due Diligence

Led financial due diligence and synergy analysis supporting a successful mid-market acquisition.

PORTFOLIO — Sharpe 1.4

Multi-Asset Allocation Study

Python backtests of diversified allocations, balancing return targets against drawdown limits.

EXPERIENCE

Career timeline

2018 – 2020

Research Associate

Company Name

- Covered consumer and industrial sectors with earnings models and company notes.
- Initiated coverage of a mid-cap retailer with a 22% identified upside.

2020 – 2023

Financial Analyst

Company Name

- Supported budgeting, variance analysis and investment appraisals across regions.
- Built scenario and sensitivity models to size downside risk before capital was committed.

2023 – PRESENT

Senior Financial Analyst

Company Name

- Own valuation and forecasting across a portfolio of business units.
- Led due diligence on an $85M acquisition and presented monthly insights to the executive team.
